Introduction of the School

Our Mentor

स्व. पं. श्री जगदीश प्रसाद जी महर्षि

Vinayak International School, an unconventional and innovative school was founded in April, 2010 with the blessings of great philanthropist Late Shri JAGDISH PARSAD JI MAHARISHI, at the premise that every child is special in his own way and has a special ability to learn. He was a great visionary & dedicated his life for serving the economically weaker section of the society. Educating the downtrodden was his passion. His dream was to improve the life of citizens of India by planting seeds of patriotism. His efforts were to provide holistic education in assimilating new frontiers of knowledge & soft skills.

With the vision and progressive outlook of our Group Chairman Mr. MAHESH KUMAR SHARMA and the dynamic Director and Principal, today **VINAYAK INTERNATIONAL SCHOOL** stands tall on its quality education with the state-of-the-art infrastructure and facilities. **VIS** has an innovative culture of its own and it is on its way to become the finest learning hub for children for the pursuit of excellence not only in academics but in all walks of life.

The curriculum at **VIS** is guided by the principles of child centered experiential learning and holistic education and also learns from progressive international practices in school education. Our curriculum designing is inspired by the works of Sri Aurobindo, the mother, Mahatma Gandhi, Rabindranath Tagore, Swami Vivekananda, Howard Gardner, Maria Montessori and our own experiences as teachers and school leaders.

VIS has evolved from the collective conviction of the Core Team of Educationists, about children, their learning experiences and by constant progress,

discovery and self-exploration. The respective Core Team members have been involved with complimentary aspects of innovative school education for all these years.

We believe that there is much more to education than merely teaching a syllabus and preparing children for examinations. It is in fact not only the preparation for the life but it is the life itself.

True education begins with knowing and understanding the child and letting her/him train the head, heart and hand by the virtue of experiencing the multidimensional perspective of a holistic and child centered curriculum, which is not only dynamic but also ever evolving. At **VIS**, the child and the educator are both life-long learners. Together, they weave a world of sharing, discovering and constructing new hopes and new vistas.

The teacher should not be a book that is read aloud, the same for everyone, no matter what his (the student's) nature and character. The first duty of the teacher is to help the student to know himself and to discover what he is capable of doing. For that he must observe his games, the activities to which he is drawn naturally and spontaneously and also what he liked to learn, whether his intelligence is awake, the stories he enjoys, the activities which interest him, the human achievements which attract him. The old method of the seated class to which the teacher gives the same lesson for all, is certainly economical and easy, but also very ineffective and so time is wasted for everybody.

MAHESH KUMAR SHARMA
Chairman

Sh. Mahesh Kumar Sharma, revered Chairman of the Vinayak Group of Institution sets his heart & soul to establish quality educational institutions wherein education is not imparting knowledge but an ability to find information, synthesize it, and to foster constructive & creative solutions...

From the Chairman's Desk

Believing in the maxim that education is the manifestation of the perfection already in man...

Dear Parents, We are a committed group of innovative and creative educationists engaged in fostering and delivering quality education in pursuit of peace, liberty, and sustainable personality development of our children.

In our school wherein our children understand and acquire newer learning skills, using well-directed educational programs. Our curriculum design is assisted by advanced educational technologies also. We are trying our best to provide positive catalytic impulses to our children to stretch inherent learning competencies through self-discovery processes.

We see children as the builders of newer INDIA in the emerging world. That is why we have envisioned an edifying system, which amalgamates the aspirations of the present generation without compromising on the Indian value system and traditions. It is our consistent endeavor is to shape our children to become successful global citizens.

After establishing VIS, Fatehpur with the resounding success of a pioneer school of Fatehpur has encouraged us. I am confident, the foundation, which VIS provides them today, shall serve as the basis of their success in the future.

We are delighted that you are considering The Vinayak International School for your son's future. This institution has honed and fine-tuned a learning and life-skilling system that has been envied and benchmarked across India and the region for many decades.

An investment made in a Vinayak International School education pays many dividends through life. From the moment he enters the school gates as a 4-year old, a child gets to realize who he is; and where his potential lies. Irrespective of his background or caliber, he is groomed and

nurtured in a way that he can stride into the adult world, confidently, responsibly and independently. Multiple generations of successful students are living proof that this unique learning system works, and works well.

Yet, in today's world, no institution of repute and quality can afford to sit on its laurels. So, a decisive shift is being engineered that will help India's best school gain a global reputation, and go where no school from India has ever gone.

In the next five years, therefore, the focus will be on academic excellence. This will help students get into the finest higher education institutions in India and around the world. Initiatives are also being put in place that will allow students to fit into a rapidly changing adult world. At the same time, the school's big strength – pedagogy balanced with pastoral care – will be supported in equal measure to enhance the school's standing as the Best School in India.

Unfortunately, when it comes to quality and excellence, there are no free lunches, nor can there be any compromises. To ensure that The Vinayak International School scales newer peaks, fees will necessarily need to be raised from time to time. As our potential parent partners, we look forward to your support on this. Of course, for an institution with a mission to find and develop exceptional boys from all backgrounds we also have the means to offer financial assistance in the form of needs-based scholarships.

Should you require any financial clarification or assistance, please do not hesitate to contact the school in advance of your son's arrival to further understand the financial assistance on offer and how the school can assist you in this matter.

With all good wishes,

Directors' Message

Over the last 12 years Vinayak International School has established an enviable reputation as an institution of innovation and quality.

Welcome to Vinayak International school with difference, here your child will experience a homely environment, warmth and individual care that will undoubtedly tap their inherent potential that exists in every individual. Leafing through this brochure will you get glimpse and feel about the school

To Prepare our students to face the challenges of a global future, due stress is laid on a acquiring a range of skills coupled with a strong ethical base of truth and honesty integrity, sincerity, tolerance and respect for other's responsibility. I look forward to having your child with us and assure you that you will find your association with a rewarding experience. The biggest challenge we face today is finding the right balance between education and our lifestyles that are fast changing. Vinayak's is the result of this thinking. The school aspires to give students a bright start to their career by imparting them latest knowledge and providing them a campus where learning is a joyous journey.

Considerable time has been spent in detailed and intense planning and development with a group of able professionals. Our endeavor is to create a world class institution that will be a centre of excellence in all respect. At every step we had the support and motivation provided by confident parents, dedicated teachers and committed students.

RAHUL SHARMA
Managing Director

From the Director's Desk

All of us know very well that a school is a temple of learning where young kids are framed to be the guide, guard, and guardian of their next generation. It is a never-ending process that begins at home. So home is the first school for a child where parents act as teachers and the school is the second home for him where teachers act as parents.

We the people of Vinayak International School believe in firm discipline which is the key to success in life, yet we prevail. In the air of openness through the love and affection of our teachers that helps the students to develop their hidden qualities and to keep the school flag flying high above. We understand very well that students are the agent of future generation - the thinkers, planners, and leaders of the society and it is the duty of every modern school to feed them with proper mental food that enables them to be worthy world citizens of tomorrow.

ANIL KUMAR SHARMA
Director

From the Principal's Desk

**"Do not follow where path may lead
Go instead where there is no path
And leave a trail."**

With this view in mind I believe in providing wholesome education to our students where equal emphasis is given in developing the Intelligence Quotient and emotional quotient of the students so that he/she is able to become responsible, disciplined and productive citizen of the country.

We at our school truly believe in creating and maintaining an environment that allows young minds to flourish without any fear because there can be no greater reward than to see our students blossom into happy, compassionate and vibrant adults.

The school always lays stress on the all round development of the students' personality be it in the field of cultural activities and sports or attaining academic excellence.

"There are two lasting gifts that we can give our children. One is root and the other is wings."

Vinayak provides a warm, caring and encouraging environment to the students so that they dream of reaching to the stars, keeping their feet firmly on the ground and do not forget their tradition, culture and their duty towards their country.

While the performance of my school children is a matter of great pride, it obviously cast upon us a great challenge ahead to sustain and improve upon the performance. I have no doubt that with the same effort, commitment and dedication we will leave no stone unturned and will continue marching ahead and would keep breaking our own records.

PARENT COMMUNITY

The parents play the most important role in bringing up the children. The school and parents are equal partners and always join hands together to create a purposeful atmosphere that promotes excellent learning to bring out the best in our children. Together we teach them to accept differences and help them to develop values that are respected and admired by all culture around the world. We expect the parents to use the strong bridges for communication between home and school. They must attend and visit school for regular parent-teacher/parent-principal/parent Housemaster meeting to discuss concerns about their child's progress and to be in touch with regular circular/notification/newsletter/results etc through emails, sms and other communication media adopted by school.

VIS KIDZEE CORNER

Once a child is born, the mother is the best teacher as well as a guide. She is the first influence, providing her child with love and security. If we look back to what we learned from our mothers, there are so many things that it may be impossible to pen down all of them. Vinayak International School has a crystal-clear concept for MOTHER TEACHER who helps students to acquire knowledge, competence or virtue. Understanding the child and developing a support between the learner and the teacher. Helps in better understanding of various development stages of the child especially cognitive and emotional. An insight into child's behavioral problems observed by the teacher. Therefore, VIS has Mother Teachers Concept in all the classes of Pre-Primary wing from Pre-Nursery to Class II supported by an assistant teacher and a governess. VIS pre primary aims at the total development of the child's- physical, motor, emotional, social, cognitive, language and moral skills. It is important to note that attendance in preschools ensures better foundation for academic achievements. The learning pedagogy at VIS focus includes physical, cognitive, social and emotional development of the child. The curriculum is designed in such a way that students construct their learning by exploring, investigation, problem solving and critical thinking. Designing of the classrooms is done in a way that reflects on the child centred pedagogy and reflects how the ideal classroom should be. Importance of play-based learning, social and emotional dealing with children, story enactment and role play, joy of teaching and learning through art and music, STEAM (Science Technology Engineering Art and Mathematics) based activities, pottery, learning about textiles and differentiate between various yarns, learning how to type at a young age and instill cognition in children is given special importance in the curriculum.
